

SAUBHAGYA SHUBHAM

AI UNDERGRADUATE

+91-9576539456 | saubhagya7developer@gmail.com | [Linkedin](#)

PROFILE

Innovative and research-driven AI & Machine Learning enthusiast pursuing B.Tech in Computer Science (AI). Experienced in developing intelligent systems that bridge AI algorithms with real-world applications, including self-tuning PID controllers for drones and AI-powered chatbots using OpenRouter API. Skilled in Python, MERN stack, and Reinforcement Learning, with hands-on expertise in control systems, web development, and data-driven automation. Founder of Dimension, a tech initiative exploring AI-integrated drone systems, and contributor at THEELITES as a GEN-AI Research Analyst, driving advancements in AI automation and scalable backend systems. Passionate about leveraging AI to design autonomous, adaptive, and intelligent solutions for future technologies.

SKILLS

- PYTHON** Pandas / NumPy / Matplotlib / Seaborn/ Tensorflow/ PyTorch/ scikit-learn/ OpenRouter / OpenAI SDKs
- MERN** HTML/ CSS/ JAVASCRIPT/ Flask / FastAPI/ EXPRESS/ NODE / REACT/ RESTful APIs/ JSON

PROJECTS

REINFORCEMENT LEARNING BASED SELF-TUNING PID CONTROLLER FOR DRONES

- Designed and implemented a Reinforcement Learning-based self-tuning PID controller for drone attitude stabilization in simulation.
- Achieved 70% faster stabilization and reduced oscillations compared to traditional PID control.
- Built using Python, Stable-Baselines3, AirSim, and DroneKit-Python with visual analytics via TensorBoard.*

AI CHATBOT USING OPENROUTER API ,PYTHON AND MERN

- Developed a web-based AI chatbot capable of engaging in real-time human-like conversations using OpenRouter API for generative responses.
- Implemented JavaScript-based front-end for a smooth chat interface and asynchronous message handling with API calls

WORK EXPERIENCE

THEELITES - GEN-AI Research analyst

March 2025 - Aug 2025

- Contributing to the Web-development of The elites
- Implemented and maintained scalable backend services using React.js, Node.js, Express.js, and Prisma for data modeling and API development.

Dimension - Founder & AI Drone Systems Developer

Jun 2024 - Present

- Founded Dimension, a tech initiative focused on AI-integrated drone systems and intelligent flight control.
- Researched PID auto-tuning using AI algorithms to enable adaptive real-time control based on environmental and performance data.
- Engineered and tuned custom autonomous drones, applying principles of machine learning and control optimization for flight stability.

ACHIEVEMENTS

- State Level champions in Drone aeronautics Competition - Held by Dr. A. P. J. Abdul Kalam Technical University Jan 2025
- Conducted a National Level Hackathon - *Hackamania* with Microsoft Azure Gurugram -by THEELITES May 2025

EDUCATION

KCC institue of Technology and management, Greater Noida, UP

2023-2027
3rd sem - 7.04 SGPA

B.tech Computer Science and Engineering (AI)

GREATER NOIDA, UP

JVM Shyamali Ranchi - 2020

RANCHI

12th CBSE Board - Percentage - 85%

DAV Kapildev Public School, Ranchi - 2022

10th CBSE Board - Percentage - 90%
